Cleaning Station Mirror*

* Mirror is a Cleaning Station® manufactured in stainless steel mirror and produced in various sizes of large dimensions, to support a serial number of Air Plants and make the absorption of indoor air pollution more effective. The modules are designed to insert the plants in suspension, in a condition similar to their natural lifestyle and habitat.

Each Cleaning Station Mirror contains a sentence, that on request can be supplied backlit (mod. Backlit)

Mirror Size L

113 x 113 x 4 cm, max depth with plants 20 cm, weight 12.5 kg.

Manufactured in stainless steel mirror with finishes in natural rubber in the Standard version.
